Keyword Feedback

The following list includes keyword feedback for the questions you answered incorrectly on the exam. If you missed multiple questions in one ICD-9 Code, the topic is only listed once. Therefore, you should not assume that the number of entries below directly corresponds to the number of questions you answered incorrectly.

Acute respiratory failure

Allergy, unspecified, not elsewhere classified

Anomalous atrioventricular excitation

Legal circumstances

Other spontaneous pneumothorax

Penetration of eyeball with (nonmagnetic) foreign body

Poisoning by anticoagulants

Poisoning by other and unspecified agents primarily affecting the cardiovascular system

Priapism

Sternoclavicular (joint) (ligament) sprain

Synovitis and tenosynovitis
